

SFP Module Support List for RV160x and RV260x Devices

Objective

Small form-factor pluggable (SFP) ports are included on the RV160 and RV260 routers to allow for the use of optical SFP transceiver modules. This article provides a complete list of officially supported SFP modules.

Applicable Devices

- RV160 Series Routers
- RV260 Series Routers

Software Version

1.0.1.3

Supported SFP Modules

SFP Module	Product Description
MGBSX1	Gigabit SX Mini-GBIC SFP Transceiver
MGBLX1	Gigabit Ethernet LX Mini-GBIC SFP Transceiver
MGBLH1	Gigabit LH Mini-GBIC SFP Transceiver
GLC-BX-U	1000BASE-BX10-U Upstream Bidirectional Single Fiber; with DOM
GLC-LH-SMD	1000BASE-LX/LH long-wavelength; with DOM
