

Offer Description – Product

Cisco Vulnerability Management – Advantage, Cisco Vulnerability Management – Premier, Application Security module, and Cisco Vulnerability Intelligence

This Offer Description is part of the [General Terms](#) or similar terms existing between You and Cisco (e.g., the End User License Agreement) (the “**Agreement**”). Capitalized terms, unless defined in this document, have the meaning in the Agreement. Any references to the Supplemental End User License Agreement or SEULA mean Offer Description.

1. Summary

This Offer Description applies to Cisco Vulnerability Management – Advantage, Cisco Vulnerability Management – Premier, Application Security module, and Cisco Vulnerability Intelligence (collectively, the “**Product**”). Cisco Vulnerability Management – Advantage allows organizations to prioritize and manage vulnerabilities based on risk. Cisco Vulnerability Management – Premier is an advanced tier of Cisco Vulnerability Management – Advantage and includes remediation performance analytics, access to Cisco Vulnerability Management’s comprehensive vulnerability intelligence, and information on zero-day vulnerabilities present in the organization’s environment. Application Security module enables centralized management of application security findings and vulnerabilities. Cisco Vulnerability Intelligence provides organizations with access to intelligence on vulnerabilities irrespective of scanner findings including, but not limited to, Cisco Security Risk Score.

2. Support and Other Services

Your purchase of the Product includes [Cisco Vulnerability Management Software Support Services](#).

3. Data Protection

The [Cisco Vulnerability Management \(formerly "Kenna"\) Privacy Data Sheet](#) describes the Personal Data that Cisco collects and processes as part of the delivery of the Product.

4. Special Terms

The vulnerability intelligence data that is provided with Cisco Vulnerability Management – Premier via the user interface or APIs may only be used in support of assets that are licensed for Cisco Vulnerability Management – Premier. To use vulnerability intelligence data for assets not licensed with Cisco Vulnerability Management – Premier, you must separately purchase the Cisco Vulnerability Intelligence offer, under which licenses are based on total number of employees in your organization and not a per-device basis.
