

# End-of-Sale for Cisco Solution Support Express for ACI and Cisco Solution Support Plus for ACI

## Cisco announces the end-of-sale for the services Cisco Solution Support Express for ACI and Cisco Solution Support Plus for ACI.

Cisco Solution Support services for the Cisco Application Policy Infrastructure Controller (APIC) are merging into a single offering: Cisco Solution Support for Application Centric Infrastructure (ACI). The features found in the Cisco Solution Support Plus for ACI service are now available to all customers purchasing Cisco Solution Support for ACI. Primarily, these features coordinate support for both northbound and interfaces. The consolidation will streamline delivery and make it easier for customers to order and use the high-value service, which provides centralized support across their Cisco ACI solution ecosystem.

### Service Migration

Customers with active Cisco Solution Support Express for ACI and Cisco Solution Support Plus for ACI contracts will continue to receive support and maintenance until the termination date of their contract.

At time of renewal, customers can then renew into the single Cisco Solution Support for ACI service offering, gaining the added functionality of Cisco Solution Support Plus for ACI for the lower cost of the consolidated offering.
