Overview

Cisco announces the end of GTA Service Offering
(Global Threat Alerts - formerly known as Cognitive Intelligence)

End-of-Service milestones

Cisco's Global Threat Alerts (GTA) Service will end on July 31, 2024.

After this date, all support services for the GTA Service are unavailable, and the service offered becomes obsolete.

Product migration options

Cisco Secure Network Analytics (SNA), Cisco Secure Endpoint (formerly AMP for Endpoints) and Cisco Secure Web Appliance (WSA) customers, using the GTA service, are encouraged to adopt Cisco XDR for cloud-delivered threat detection and analytics.

Cisco Secure Network Analytics customers can achieve similar outcomes to the GTA service with on-premise telemetry by using the Central Analytics feature and integrating the Talos Threat Intelligence feed.

For more information

For more information on Cisco XDR, visit <https://www.cisco.com/site/us/en/products/security/xdr/index.html>.

For more information on enabling Central Analytics within Secure Network Analytics, visit https://www.cisco.com/c/dam/en/us/td/docs/security/Analytics/7_5_0_Analytics_Detections_Alerts_Observations_DV_1_0.pdf.

For more information on enabling the Talos Threat Intelligence feed within Secure Network Analytics, visit the Threat Feed section of: https://www.cisco.com/c/dam/en/us/td/docs/security/stealthwatch/system_installation_configuration/7_5_0_System_Configuration_Guide_DV_1_1.pdf.
