from dream to reality

Bringing Digital Transformation to Life

"Connectivity and/or convergence between OT and IT is essential for businesses to compete. Manufacturers and other industrial organizations today face the increasing demand for tighter integration and more information."

– ARC ADVISORY GROUP –

Do you have siloed networks that limit data sharing? Are you facing data overload?

87%

of organizations are classified as having low business intelligence and analytics maturity

– GARTNER –

Are you protected from cybersecurity threats?

$3.86

million is the global average total cost of a data breach in 2020

– IBM –

Is your staff prepared to handle modern networks?

2.1M

U.S. manufacturing skills gap could leave as many as 2.1 million jobs unfilled by 2030

– DELOITTE –

We are here to help

Rockwell Automation is a global leader in industrial automation with deep expertise in OT and broad offerings to fit your needs.

Cisco is the worldwide leader in IT networking and security with established customers in manufacturing

Together, Rockwell Automation and Cisco are helping industrial companies achieve digital transformation with a secure and reliable network architecture that:

| Shares the right data across your enterprise | Improves your production yield and efficiency | Minimizes security and safety risks | Gives your staff the skills they need |

Results in action

GRUPO BIMBO SETS THE COURSE FOR DIGITAL MANUFACTURING

"Cybersecurity is a big concern, so we're seeking multi-tiered security down to the device level. We're using the ISA 99 standard and the Converged Plantwide Ethernet (CPwE) guidelines to deploy firewalls and other devices."

PANDUIT REDUCES DOWNTIME, SAVES COSTS USING CPWE

"The CPwE deployment at our Costa Rican manufacturing facility has drastically improved our network reliability, scalability and maintainability. We've saved up to $500,000 per network outage we've avoided. This is the template for all our future network upgrades."
