Collaboration for Higher Education

Free your students from the constraints of the traditional classroom. With collaboration powered by Cisco Webex, it's never been easier to enhance digital learning at your university. Discover the power of the liberated learner.

Student

Enhance student success

- Allow students with multiple learning styles to learn at their own pace
- Provide opportunities for on-demand learning, regardless of physical location
- Streamline communications, send messages, share files, and meet with peers and professors through virtual environments

Professor

Extend access for students

- Deliver interactive distance learning to reach new students
- Develop distributed, virtual classes with improved access to experts
- Provide personalized and on-demand learning for students
- Easily share resources and communicate with students in virtual environments

Administrator

Increase efficiency

- Deliver access to administrative and academic services on any device
- Increase collaboration between institutions
- Accelerate communications between departments
- Save travel time and money related to cross-institution projects

Researcher

Collaborate securely

- Allow researchers to engage with peers in disparate locations through interactive video and virtual labs to share findings, brainstorm, and develop new knowledge.
- Give researchers extensive access to the resources they need to discover, process, and share information.
