Overview

EOL15050

Cisco announces a change in product part numbers and description for the Cisco Intersight. As a part of this announcement, 'Cisco Intersight' will refer to the platform going forward, and 'Intersight Infrastructure Service' is the name of the service. This is a product part number and description change only announcement. Customers will experience no change in functionality when using the new product part numbers. The new product part numbers are designed to simplify the customer ordering process. The last day to order the affected product using the current product part numbers is July 29, 2023. Customers will continue to receive support from the Cisco Technical Assistance Center (TAC) until otherwise specified in the end-of-life announcement for the new product part numbers. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement.

Product migration options

This is a product part number and description change only. The new product IDs (PIDs) simplify Intersight licensing by reducing the number of licensing tiers and provide deployment mode flexibility by converging PIDs for SaaS and Connected Virtual Appliances (CVAs).
