Meetings in Webex App

Welcome to the Webex App

Webex brings everyone together to do exceptional work with one easy-to-use and secure app for calling, meetings, and messaging to get work done. In real-time or anytime, Webex is the engaging, intelligent and inclusive app that creates exceptional experiences and makes working together distinctly better.

Figure 1. 5x5 grid view lets you zoom in and out, so you can customize your view to see fewer people or everyone

Experience video conferencing that is engaging, intelligent and inclusive

Meetings in the Webex App offers high-definition audio and video with advanced functionality that lets you personalize your experience, work smarter and have better connections with your customers, partners and colleagues.

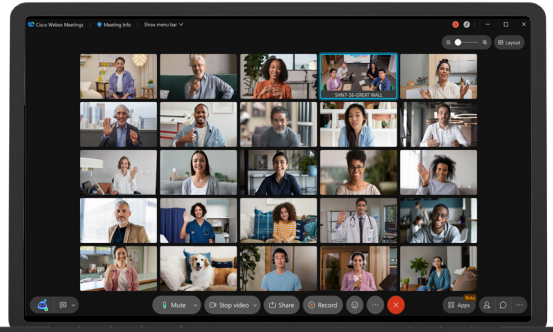

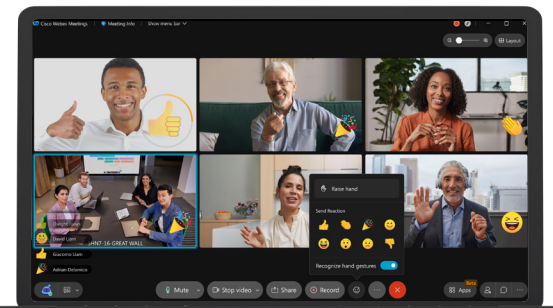

Figure 2. Reactions and gesture recognition lets you send non-verbal feedback into the meeting

Benefits

Security:
Have peace of mind that your conversations are being held on a highly secure platform with end-to-end encryption.

Flexibility:
Work from anywhere, on any device, at any time.

Intelligence:
Artificial intelligence automates tasks and personalize experiences.

Engaging:
Facilitate live polls and Q&A, screen share, white board, and separate into breakout rooms for richer collaboration.

Inclusive:
Deeply integrated with popular productivity and learning tools.

Figure 3. Live polling and Q&A with Slido includes everyone with a simple word cloud or other unique poll

AI does the heavy lifting

- Webex Assistant, your digital in-meeting assistant, will automate common tasks such as real-time transcription, note-taking and meeting highlights, so you can focus on the meeting
- Language is no longer a barrier with real-time translation—from English to 100+ languages
- With noise removal and speech enhancement, annoying disruptions like dog barking, lawn mowers, and rustling paper, will be a thing of the past—so you can send the best audio into your meeting
- People Insights gives you more context with relevant, professional and up-to-date data on your meeting participants

What it does

High quality video conferencing

Enjoy simple, video first meetings with multi-stream high-definition audio and video with custom layouts so you experience the meeting your way. Be anywhere and reach anyone on any device—desktop, mobile, web, video devices—with easy, consistent experiences.

2-way collaboration

Share your screen, co-create on a whiteboard, separate into break-out sessions, and send/receive instant non-verbal feedback with in-meeting reactions and gestures. With Slido, even use a diverse set of live polls or Q&A features to create interactive, inclusive and effective meeting experiences.

Have great meetings in the tools you love

The Webex App integrates with Microsoft Teams, Slack, Google, ServiceNow, Salesforce, and many others, so you can have great meetings wherever you work. You can also meet where you learn through Webex integration with popular learning management systems such as Canvas, Moodle, Blackboard and more.

Work together securely

The Webex App is built with Cisco's industry-leading security. A global architecture and network help ensure speed and performance so you'll get secure, high-quality video meetings without compromise.

Get started
