

End-of-Life Announcement for the Cisco Umbrella Roaming Client

Contents

Overview	3
Product Migration Options	3
For more information	4

Overview

Cisco announces the end-of-life dates for the Cisco Umbrella Roaming Client software.

Software maintenance will end on **April 2, 2025**. No patches or maintenance releases will be provided for Umbrella Roaming Client after that date.

Application software support will not be available for the stated software versions beyond **April 2, 2025**.

Software maintenance and application software support requires an active term license or active service contract for perpetual licenses. After these dates, all support services for the product are unavailable, and the product becomes obsolete.

Product Migration Options

Customers are encouraged to migrate to the new unified security agent known as Cisco Secure Client. All customers with valid Umbrella licenses and active support contracts are eligible to migrate to Cisco Secure Client for entitlement to the Umbrella Roaming Security Module, which includes all the Umbrella Roaming Client capability, at no charge.

There is no additive charge to adopt the current version of Cisco Secure Client for any customer who is entitled to utilize Umbrella Roaming Client either directly, or indirectly through another purchased Cisco service which includes use of the client for that use case. License information can be found at:

<https://www.cisco.com/c/en/us/products/collateral/security/anyconnect-secure-mobility-client/secure-client-og.html>
