Introduction

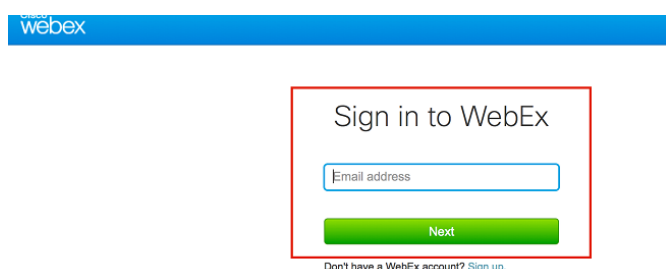

This document describes the basic differences between Meeting Center and WebEx Meetings.

Differences between Meeting Center and WebEx Meetings

Meeting URL for Meeting Center: <company name>.WebEx.com for example, cisco.webex.com

Meeting URL for Cisco WebEx Meetings: meetings.webex.com (for the basic account)

Meetings and Web Application (page side)

Feature/Module	Meeting Center	WebEx Meetings	Notes
Advanced Scheduler Send copy of invitation email to me flag	Yes	No	Not needed as host and invitees get a contextual invite.
Advanced Scheduler: Delete my meetings when completed	Yes	No	Different logic for restart for Meetings.
Advanced Scheduler: Ability to change timezone from scheduler	Yes	Roadmap	
Advanced Scheduler: Plan meeting timezones	Yes	No	
Advanced Scheduler: Attendees can join before start time; first attendee to be presenter; attendee to join audio	Yes	Yes	All settings are moved to site admin only and are enabled by default.
Advanced Scheduler: Email reminder	Yes	Yes	Moved to users meetings preference.
Advanced Scheduler: Yearly recurrence	Yes	No	
Advanced Scheduler: Ability to not show Toll free and/or global call-in numbers	Yes	Roadmap	
Advanced Scheduler: Entry exit tone	Yes	Yes	Moved to meeting preference.
Advanced Scheduler: Request that attendees verify rich media players before joining the meeting	Yes	No	
Advanced Scheduler: Require attendees to have an account	Yes	Roadmap	

on the website in order to join the meeting

Advanced

Scheduler: Registration Yes Roadmap

Advanced

Scheduler: Info tab templates Yes No

Advanced

Scheduler: Automatically share presentation or document once a participant joins the meeting Yes No

Advanced

Scheduler: Meeting options (chat, video, notes etc.) Yes No

Advanced

Scheduler: Attendee privileges Yes No

Scheduler:

Record meeting flag No Yes

Scheduler: Attach files to meetings No Yes

Scheduler: Specify alternate location No Yes

Meeting templates Yes No

One-Click meeting Yes Yes

Cisco WebEx Meetings allows users to modify - Topic, Invitee list and meeting password before launching the meeting.

Public meeting calendar Yes No

Personal Meeting Room (PMR) Yes No

Will be done in the form of Virtual Meeting Room (VMR)/PMR concept.

Exception support for recurring meetings No Yes

Access Anywhere Yes No

Decision to End-Of-Life (EOL).

Custom session types Yes No

Will be handled with enhanced policies.

Default session type Yes No

Custom welcome page Yes No

Have the new Cisco WebEx Meetings dashboard.

My WebEx Yes No

Dashboard No Yes

With social capabilities of Feed and Comments.

Integrated Instant Messaging (IM) No Yes

Integrated No Yes

Presence			
Meeting Spaces	No	Yes	
File	Yes	Yes	File library, versioning, sharing and permissions, Webdocs, folders, file locking. Cisco WebEx Meetings contains Corporate Directory (for specific users only), My WebEx Contacts (which are really IM /Jabber contacts), Imported Contacts (contacts who get added either via an actual import operations or via an email address when invited to a meeting/file share).
Contacts	Yes	Yes	Contact schema in Meeting Center is much more rich than in WebEx meetings today. The contact schema in WebEx meetings only has firstName, lastName, and emailAddress. There would be data loss on migration of Meeting Center Contacts to WebEx meetings Contacts. Users are able to retain access to their contact information after migration to WebEx meetings, possibly via Comma Separated Values (CSV) file that are exported for them. The schema that Common Contacts will provide in WebEx meetings 1.5 is able to support everything in the Meeting Center schema; if the Meeting Center users are migrated to W11 after the integration with Common Contacts, then no contact data is lost.
Centers	Yes	Yes	Centers on Cisco WebEx Meetings have an old look and feel and they work on the old code base.
Search	Yes	Yes	Cisco WebEx Meetings have much more robust search that spans across meetings, files and contacts.
Instant search	No	Yes	
User predictive search	No	Yes	
First time experience with videos	No	Yes	
Recently viewed files	No	Yes	
Recently viewed contacts	No	Yes	
Notifications preference	No	Yes	
Profile visibility preference	No	Yes	
User avatars	No	Yes	
Common Identity (CI)	No	Yes	CI integration is completed as part of the 1.4 release.
Unified meeting list	No	Yes	
Reports	Yes	Yes	Uses the Trains reports.
Training	Yes	No	No link to WebEx University. They are substituted by "How To" videos. Also, orgs can customize to add additional links if they want in the Help section.
Verify client join (host, attendee)	Yes	No	
Rich text/HTML emails	No	Yes	
Alternate Host	Yes	Yes	If you have a Cisco WebEx Meetings Free, Free Trial, or

Premium account, it is NOT possible to assign an alternate host.

If you have a Cisco WebEx Meetings Enterprise account, and you have a colleague who also has a Cisco WebEx Meetings host account on your site then you can assign an alternate host.

If you have a Cisco WebEx Meetings Free, Free Trial, or Premium account, it is NOT possible to assign an alternate host.

Schedule on Behalf	Yes	Yes
--------------------	-----	-----

If you have a Cisco WebEx Meetings Enterprise account, and you have a colleague who also has a Cisco WebEx Meetings host account on your site then you can assign an alternate host.

Reassign recordings to another user	Yes	No	
Table of Contents	Yes	Yes	
Disabling a recording	Yes	No	
Set a password to access the recording	Yes	No	
Streaming link, download link and send sharing link via email	Yes	Yes	

Cross Platform

Feature/Module	Meeting Center	WebEx Meetings
Operating System/Browser/System Requirements	Refer to the link: System Requirements and Feature Support , refer to the table under Operating System and Browser Support.	Refer to the link: System Requirements Release Notes , refer to the table under Cross Platform Support.

Productivity Tool

Feature/Module	Meeting Center	WebEx Meetings	CWMS
Mac PT	No	Yes	No
Lotus Notes Integration	Lotus Notes 8.5.3 Supports windows OS platform: Win7/Win Vista/XP	Roadmap	Roadmap
TP integration	Yes	Roadmap	No
SOBO	Yes	Win PT - Yes Mac PT - Not support	Yes, only for WebEx audio; No support to PCN (Personal Conference Number)audio
Alternate Host Single occurrence	Yes	Yes	Yes
Calendar View	No	Yes	No
Automatically Record support	No	Yes	No
Outlook Support	Refer to the link: What Programs Integrate with Productivity Tools for Cisco WebEx Meetings? , refer to the table under Outlook Integration Matrix Cisco WebEx Meetings 1.3	Refer to the link: What Programs does Productivity Tools Integrate With? , refer to the table under Outlook Integration for Windows.	CWMS (Cisco WebEx Meeting Server) Supported: Outlook 2007/Exchange 2007, Outlook 2010(32 bit)/Exchange 2007, Outlook 2010(32 bit)/Exchange 2010, Outlook 2010(32 bit)/Exchange 2007, Outlook 2010(32 bit)/Exchange 2010 Not Supported: Outlook 2013/Exchange 2010 (CMWS 2.0 and above), Outlook

2010/Exchange 365 Hosted (CMWS 2.0 and above), Outlook 2013/Exchange 2013 (CMWS 2.0 and above), Outlook 2013/Exchange 365 Hosted (CMWS 2.0 and above)

Localization

Feature/Module Meeting Center WebEx Meetings

Russian	No	Yes
Swedish	Yes	Roadmap

Audio

Feature/Module	Meeting Center	WebEx Meetings	Notes
Coverage	{full footprint}	no diff. HT diff. offers LT: US & Canada offers; Euro10	
Personal Conferencing	yes	HT only	
Internal aka on-net call-back	yes	<confirming>	
supports VoIP-only	yes	yes	session type/privilege management somewhat different
Call back	yes	yes	offer dependent
Invite by Phone	yes	HT only	(removed from LT offer for fraud control)
Hybrid audio	yes	yes	{voip and telephony in same meeting}
TSP Integrated audio	yes	yes	
TSP Hybrid audio	yes	yes	(TSP provided voip)
Meeting Place integrated audio	yes	<confirming>	
CCA (Cloud Connected Audio)	yes	yes	
Audio prompt languages	same	same	<list>
Dial in	yes	yes	
Mute/Entry exit/Expell/Active speaker	same	same	

Mobile

Feature/Module	Meeting Center	WebEx Meetings	Notes
iOS - Single Sign On	Yes	No	roadmap
Training Center - iOS	Yes	No	roadmap
Training Center - Android	Yes	No	roadmap
iOS - Meeting Handoff	Yes	No	no plans yet

IM

Feature/Module	Meeting Center	WebEx Meetings	Notes
IM	No	Yes	Built-in IM client in WebEx Meetings pre and post Meeting pages.

Admin/Enterprise Features

Feature/Module	Meeting Center	WebEx Meetings	Notes
Admin configurable Branding	No	Yes	Can be managed through admin tools instead of creating a remedy ticket.
Rich text/HTML emails	No	Yes	Except some EC templates
PT forced install on login	Yes	Roadmap	
Network and Identity based policies	No	Yes	
Single Sign On	Yes	Yes	Support for Enterprise Partial and iOS coming soon
Lockdown	Yes	Roadmap	
Multiple URL support	Yes	Roadmap	Still exploring as to what is the right approach of supporting use cases around Multiple URLs
Telepresence Integration (Killers)	Yes	Roadmap	
Custom Session Types	Yes	Yes	Still exploring if we support session types in the future provide as policies.
ASR Node support	Yes	No	Its being EOL on the Trains
Admin audit logs	Yes	Yes	Admin audit trail report
File upload controls (internal/external)	No	Yes	
Session timeout limits	No	Yes	
User profile permissions	No	Yes	
Contacts permissions	No	Yes	
Meeting Place Integration	Yes	No	

APIs

Feature/Module	Meeting Center	WebEx Meetings	Notes
Admin and User: User Management APIs (including Search APIs)	Yes	Roadmap	Cisco WebEx Meetings 1.4 - Common Identity System for Cross-Domain Identity Management (SCIM) APIs
Meetings Management APIs	Yes	Roadmap	Cisco WebEx Meetings 1.4
Meeting Invite APIs	Yes	Roadmap	Cisco WebEx Meetings 1.4
Admin and User: User's Meeting Preference APIs	Yes	Roadmap	Cisco WebEx Meetings 1.4 (OneClick Settings, Personal Conference Number (PCN), Telephony Service Provider(TSP) Audio settings, other preferences)
Meeting Attachment APIs	N/A	No	Requires a File Service either on top of current Data Management System (DMS) solution or any other longer term option
Recording APIs	Yes	Yes	Current neighbor (NBR) Web Service Server (WSS) will work. Must be replaced with REpresentational State

Social APIs	N/A	Roadmap	Transfer (REST) APIs. Tentatively Cisco WebEx Meetings 1.4 if Scrum teams can deliver.
Admin: History APIs	Yes	No	Need further analysis on usage and incorporate into roadmap for future release.
Admin: Organization Management APIs	Yes	Roadmap	Partial set of APIs being planned in Cisco WebEx Meetings 1.4. Remaining depend on a combination of Common Identity System Center Operations Manager (SCOM) APIs and Meetings Admin APIs.
Training Center APIs	Yes	No	Pending integration of Centers into Cisco WebEx Meetings, including users. Old XML APIs work for old centers
Support Center APIs	Yes	No	Pending integration of Centers into Cisco WebEx Meetings, including users. Old XML APIs work for old centers.
WebACD APIs for Support Center	Yes	No	Pending integration of Centers into WebEx11, including users. Old XML APIs work for old centers.
Event Center APIs	Yes	No	Pending integration of Centers into WebEx11, including users. Old XML APIs work for old centers.
User Login Flows	Yes	Roadmap	Cisco WebEx Meetings 1.4 - CI/Oauth flows
Anonymous Login Flows	Yes	Roadmap	Cisco WebEx Meetings 1.4 - CI/Oauth flows
Admin: B2B API Call Flows	Yes	Roadmap	Basic support being planned for in Cisco WebEx Meetings 1.4. Partner Admin support depends on Partner Admin Role/Gateway.
Developer App Key Management	N/A	Roadmap	Cisco WebEx Meetings 1.4 (through developer.cisco.com)
Admin: Access Token Management	N/A	Roadmap	Cisco WebEx Meetings 1.4 (through Org Admin tool)
User: Access Token Management	N/A	No	On backlog, pending which UI it should go in (Meetings Preferences UI?)
Admin: Custom Session Type APIs	Yes	No	Pending support of Custom Session types in Org Admin
Contact APIs (including Search APIs)	N/A	Roadmap	Tentatively Cisco WebEx Meetings 1.5, when Cisco WebEx Meetings integrates with Common Contacts
Files APIs	N/A	No	Pending a common files service (Not implemented yet)
Multi-URL Support in APIs	Yes	No	Pending the final solution of multi-URL support. Not implemented yet)
Enterprise/Partner Shared Site support in APIs	N/A	No	Pending the final solution for Shared site. Low touch site will be supported
API Version Control	Yes	Roadmap	Cisco WebEx Meetings 1.4
API Explorer	Yes (Basic)	Roadmap	Cisco WebEx Meetings 1.4 (to be integrated in developer.cisco.com)
