How Can I Remove a Reserved License Reservation from a Device?

Contents

For External Customer / Partner Use Only: These instructions are provided to help customers / partners perform the action themselves to resolve the issue. If the customer / partner runs into issues in the instructions, please have them open a case with licensing support (https://www.cisco.com/go/scm) To help resolve. Please **DO NOT** perform these actions yourself if you are an internal Cisco resource outside of the Licensing Support team.

Before you start, ensure that you have:

- Active Cisco.com account& Smart account that is enabled for SLR
- Smart account user, Smart account administrator, Virtual account user, or Virtual account administrator role.
- Reservation Return Code (Refer Product Guide.)

We can remove SLR from a device, by removing the product instance from CSSM.

Step 1: Go to Cisco Software Central and log in with your cisco.com credentials

Step 2: Select the Smart Account from the Smart Account Selector at the top right corner

Step 3: Click on the Manage licenses under the Smart Software Manager section

Step 4: Click on the inventory tab

Step 5: Select the Virtual Account from Virtual account drop down list

Step 6: Click on the Product Instances tab

Step 7: Locate the required product instance from the product instances list. Optionally, you can enter device or product type in Search box to locate the product instance

Step 8a: Click on 'Actions' menu and select "Remove"

Or

Step 8b: Click on the product instance name. From the "Actions" drop-down list in left bottom corner in new window, select "Remove" option

Step 9: Enter "Reservation Return Code" value in the text box displayed in pop up window

Step 10: Click on "Remove Reservation"

Step Result: The reservation information is removed, and the license is made available in the virtual account.

Troubleshooting:

If you experience an issue with this process, that you cannot address, please open a case at [SCM](#) using software license option
