## Introduction

When contacting Cisco TAC, tech-support files are critical to help determine what the issue is.

This document provides a visual guide that shows how to collect tech-support files from the UCS Central HTML5 UI and CLI.

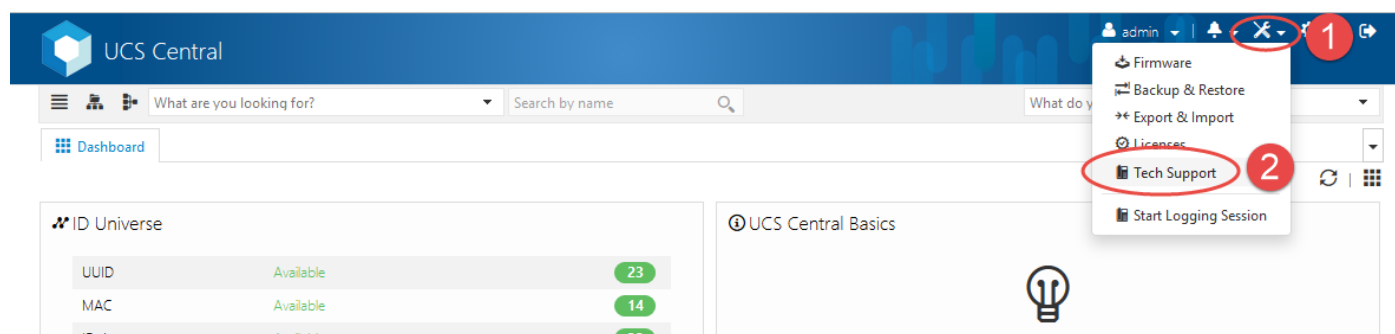

## Prerequisites

## Requirements

There are no specific requirements for this document.

## CLI Method

After logging into Central using an SSH client, you may carry out the following commands to generate a tech-support file and copy it via tftp:

```
central# connect local-mgmt
central(local-mgmt)# show tech-support detail
Initiating tech-support information on standalone node...
The detailed tech-support information is located at
volatile:/20170217043724_central.central_techsupport_UCSCENTRAL_ALL.tgz
central(local-mgmt)# dir volatile:/

1.2M Sep 29 2015 20150929024120_central_techsupport_UCSCENTRAL_ALL.tgz
