Certificate Management on RV110W

Objective

A certificate is an electronic document used to secure a VPN.

This document explains how to manage certificate settings on the RV110W.

Applicable Devices

• RV110W

Procedure

Generate a New Certificate

Step 1. Use the router configuration utility to choose **VPN > Certificate Management** and then click the **Generate a New Certificate** radio button.

	Certificate Management
	Import or Generate Certificate
	Certificate Last Generated or Imported: 01/01/10 12:36 AM
	Generate a New Certificate
	O Import Certificate From a File
	Certificate Filename: Browse
	Generate Certificate
	Export for Admin Export for Client
100 100	Cancel

Note: This replaces the old certificate on the RV110W.
