Nexus Dashboard Orchestrator System Configuration for ACI Fabrics, Release 4.3.x

Table of Contents

System Configuration Settings

There is a number of global system settings that are available under **Admin > System Configuration**, which you can configure for your Multi-Site Orchestrator as described in the following sections.

System Alias and Banner

This section describes how to configure an alias for your Nexus Dashboard Orchestrator as well as enable a custom GUI-wide banner to be displayed at the top of your screen, as shown in the following figure.

Figure 1. System Banner Display

1. Log in to your Orchestrator.

2. From the left navigation pane, select **Admin > System Configuration**.

3. Click the **Edit** icon to the right of the **System Alias & Banners** area.

   This opens the **System Alias & Banners** settings window.

4. In the **Alias** field, specify the system alias.

5. Choose whether you want to enable the GUI banner.

6. If you enable the banner, you must provide the message that will be displayed on it.

7. If you enable the banner, you must choose the severity, or color, for the banner.

8. Click **Save** to save the changes.
