

Release Notes for Cisco ONS 15454 Release 9.0.3

78-19891-01

First Published: December 13, 2010

Release notes address closed (maintenance) issues, caveats, and new features for the Cisco ONS 15454 SONET platform. For detailed information regarding features, capabilities, hardware, and software introduced with this release, refer to the “Release 9.0” version of the Cisco ONS 15454 Procedure Guide; Cisco ONS 15454 Reference Manual; Cisco ONS 15454 Troubleshooting Guide; and Cisco ONS 15454 SONET TL1 Command Guide. For the latest version of the Release Notes for Cisco ONS 15454 Release 9.0.3, visit the following URL:

http://www.cisco.com/en/US/products/hw/optical/ps2006/prod_release_notes_list.html

Cisco also provides Bug Toolkit, a web resource for tracking defects. To access Bug Toolkit, see the following URL:

New Features and Functionality

Release 9.0.3 addresses the following critical fixes over Release 9.0:

- Circuit cannot be created when the STS pool allocation is made automatically on the CE-MR-10 and ML-MR-10 cards.
- Memory leak is observed when the RTRV-VT1::ALL TL1 command is issued.
- STS pool allocation is wrongly displayed in the Maintenance > STS/VT Allocation tab of the CE-MR-10 card view in CTC.

Americas Headquarters:

Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

- TCC crashes if the VC4/VC LO allocation is clicked in the Maintenance tab of the CE-MR-10 card view in CTC.
- The RTRV-CRS-VT1 TL1 command returns a wrong AID for the EC1 port on DS3_EC1_48 card.

Using the Bug ToolKit

In Cisco ONS 15454 Software Release 9.0.3 and later, use the Bug ToolKit to view the list of outstanding and resolved bugs in a release. The following sections explain how to use the Bug ToolKit.

Search Bugs

This section explains how to use Bug ToolKit to search for a specific bug or to search for all the bugs in a specified release.

Step 1 Go to <http://tools.cisco.com/Support/BugToolkit/action.do?hdnAction=searchBugs> and click **Launch Bug Toolkit**.

You will be prompted to log into Cisco.com.

Step 2 To search for a specific bug, enter the bug ID in the **Search for Bug ID** field and click **Go** in the Search Bugs tab.

To search for all the bugs in a specified release, enter the following search criteria in the Search Bugs tab:

- Select Product Category—Select **Optical Networking**.
- Select Products—Select **Cisco ONS 15400 Series** from the list.
- Software Version—Select **9.0.3** to view the list of outstanding and resolved bugs in Cisco ONS 15454 Software Release 9.0.3. The generated list includes bugs for Cisco ONS 15454 Software Release 9.0.3.
- Search for Keyword(s)—Separate search phrases with boolean expressions (AND,NOT,OR) to search within the bug title and details.
- Advanced Options—You can either perform a search using the default search criteria or define custom criteria for an advanced search. To customize the advanced search, select **Use custom settings for severity, status, and others** and provide the following information:
 - Severity—Select the severity level. Check severity levels 1, 2, and 3.
 - Status—Select **Open, Fixed, or Terminated**.

Select **Open** to view all the open bugs. To filter the open bugs, clear the Open check box and select the appropriate suboptions that appear below the Open check box. The suboptions are New, Held, More, Open, Waiting, Assigned, Forwarded, Postponed, Submitted, and Information Required. For example, if you want to view only new bugs in Cisco ONS 15454 Software Release 9.0.3, select **New**.

Select **Fixed** to view fixed bugs. To filter fixed bugs, clear the Fixed check box and select the appropriate suboptions that appear below the fixed check box. The suboptions are **Resolved** or **Verified**.

Select **Terminated** to view terminated bugs. To filter terminated bugs, clear the Terminated check box and select the appropriate suboptions that appear below the terminated check box. The suboptions are **Closed, Junked, and Unreproducible**. Select multiple options as required.

- Advanced—Select the **Show only bugs containing bug details** check box to view only those bugs that contain detailed information, such as symptoms and workarounds.
- Modified Date—Select this option if you want to filter bugs based on the date on which the bugs were last modified.
- Results Displayed Per Page—Select the appropriate option from the list to restrict the number of results that appear per page.

Step 3 Click **Search**.

The Bug Toolkit displays the Search Results page with a list of bugs based on the specified search criteria. You can filter the search results based on severity, status, and/or technology.

Save Bugs

This section explains how to use Bug Toolkit to save the bugs retrieved by your search for the bugs in a specific release.

Step 1 Perform a search.

Repeat [Step 1](#) through [Step 3](#) in the “Search Bugs” section on page 2.

Step 2 Select the check boxes next to the bug you want to save in the Search Results page and click **Save Checked**.

The Save Bug Settings area appears under the Search Bugs tab.

Step 3 Specify group settings in the **Place in Group** field.

- Existing Group—Select an existing group.
- Create New Group—Enter a group name to create a new group.

Existing groups have their group notification options already set. If you select an existing group, go to [Step 5](#).

Step 4 Specify the following email update (group notification) options.

- No emailed updates—Select if you do not want to receive email updates.
- Yes, email updates to—Enter your email address.
 - On a schedule—Specify the frequency of email delivery.

Step 5 Click **Save Bug**.

The Bug Toolkit saves the selected bugs in the specified group.

Save Search

This section explains how to use Bug Toolkit to save your search after searching for the bugs in a specific release.

Step 1 Perform a search.

Repeat [Step 1](#) through [Step 3](#) in the “Search Bugs” section on page 2.

Step 2 Click **Save Search** in the Search Results page to save your search with the specified criteria.

The Save Search Settings area appears under the My Notifications tab.

Step 3 Enter a name for your search in the **Search Name** field.

Step 4 Specify group settings in the **Place in Group** field.

- Existing Group—Select an existing group.
- Create New Group—Enter a group name to create a new group.

Existing groups have their group notification options already set. If you select an existing group, go to [Step 6](#).

Step 5 Specify the following email update (group notification) options.

- No emailed updates—Select if you do not want to receive email updates.
- Yes, email updates to—Enter your email address.
 - On a schedule—Specify the frequency of email delivery.

Step 6 Click **Save Search**.

The Bug ToolKit saves your search in the specified group.

Retrieve Saved Search or Bugs

This section explains how to use Bug ToolKit to retrieve a saved search or bugs.

Step 1 Go to <http://tools.cisco.com/Support/BugToolkit/action.do?hdnAction=searchBugs> and click **Launch Bug Toolkit**.

You will be prompted to log into Cisco.com.

Step 2 Click **My Notifications** tab.

My Notifications tab displays the Group Name, Summary, and Actions.

Step 3 Click the group in the Group Name column. The group contains saved search and bugs.

Step 4 Retrieve saved search or bugs.

- Click the saved search name to display the Search Results page.
- Click the saved bug to display details or hover your mouse pointer over the Info link.

The My Notifications tab also provides option to delete bug, delete search, delete group, edit group notifications (in the Actions column), move selected saved search or bugs to different group, and to export saved bugs in all the groups to a spreadsheet.

Export to Spreadsheet

The Bug ToolKit provides the following options to export bugs to a spreadsheet:

- Click **Export All to Spreadsheet** link in the Search Results page under the Search Bugs tab. Specify file name and folder name to save the spreadsheet. All the bugs retrieved by the search will be exported.

- Click **Export All to Spreadsheet** link in the My Notifications tab. Specify file name and folder name to save the spreadsheet. All the saved bugs in all the groups will be exported.

If you are unable to export the spreadsheet, log into the Technical Support Website at <http://www.cisco.com/cisco/web/support/index.html> for more information or call Cisco TAC (1-800-553-2447).
