

Upgrade CPS

Refer to the *CPS Installation Guide* for instructions to install a new CPS deployment in a VMware environment, or the *CPS Dynamic Orchestration Guide* to install a new CPS deployment in an OpenStack environment.

- [In-Service Software Upgrade, on page 1](#)

In-Service Software Upgrade

In-Service Software Upgrade (ISSU) is strictly **not supported** and **only** the In-Service Software Migration (ISSM) is **supported** for **any** CPS release.
