July 2022

What's New in this Release

Cisco Spaces dashboard

The following feature is introduced in the Cisco Spaces dashboard:

Secure File Transfer Protocol (SFTP) data export configuration is now available in the Cisco Spaces dashboard.

In the Cisco Spaces dashboard, click the **Menu** icon (☰) and choose **Setup** > **Data Export**. Use this option to configure the automatic export of raw data as CSV files to SFTP servers.

The following are the different types of data available for export:

- Visits

- Right Now - People Count (Wi-Fi)

- Engagement - Rule Activity

- Location Personas - Rule Activity

- Open Roaming - User Data

For more information about routing the SFTP connection over VPN, contact Cisco Spaces support.

What's Changed in this Release

Map Service

The following enhancements are made in Map Service:

- **Support for Map Hierarchy Migration from Cisco Prime Infrastructure to Cisco Catalyst Center**: Cisco Spaces Location Hierarchy now supports import of migration data with nested sites from Cisco Prime Infrastructure to Cisco Catalyst Center.

- **Support for Cisco Catalyst Center Nested Site Hierarchy**: You can now import or synchronize new sites from Cisco Catalyst Center to Cisco Spaces on top of the existing site hierarchy.

- **Support for Planned Access Point (AP) Import**: You can now import planned APs into Map Service.

Issues

Issues describe unexpected behavior in the Cisco Spaces application. The Resolved Issues and Open Issues sections list the issues in this release.

The following information is provided for each issue:

- Identifier: Each issue is assigned a unique identifier (ID) with a pattern of CSC*xxNNNNN*, where *x* is any letter (a-z) and *N* is any number (0-9). These IDs are frequently referenced in Cisco documentation, such as Security Advisories, Field Notices, and other Cisco support documents. Cisco Technical Assistance Center (TAC) engineers or other Cisco staff can also provide you with the ID for a specific issue.

- Description: A description of what is observed when the issue occurs.
