

Cisco Network Services

Orchestrator

Product ID : cisco-sa-20180905-nso-infodis

[CVE-2018-0463](#)

Published : 2018-09-05 16:00

Last Updated : 2018-09-06 13:47

Version : 1.1 : Final

CVSS Score : [5.9](#)

Workarounds : No workarounds available

Cisco ID : [CSCvj50567](#) [CSCvk74975](#)

Summary of the vulnerability details.

Impact

Cisco Network Services Orchestrator(NSO) is a Cisco Network Plug and

Play(NPE) component that is used to manage network devices.

The vulnerability exists in the Secure Unique Device

Identifiers(SUDI) component, which is used to generate unique identifiers for network devices.

Network Plug and

Play(NPP) component, which is used to manage network devices.

The vulnerability exists in the SUDI component, which is used to generate unique identifiers for network devices.
