1/2 CVE-2019-0807 - asa-privescale

Final CVSS: 8.8

No workarounds available

Cisco ID: CSCvp09150

Severity: High
 ID: 20190807-asa-privescale
 Date: 2019-08-07 16:00
 Version: 1.0 : Final
 CVSS: 8.8
 Workarounds: No workarounds available
 Cisco ID: [CSCvp09150](#)

[CVE-2019-1934](#)

asa 9.5(1) through 9.5(1.1) on ASA devices is affected by a privilege escalation vulnerability. An attacker with read-only access to the configuration files can escalate their privileges to root.

asa, 9.5(1) to 9.5(1.1)
