

Cisco Small Business

Session Management CVE-2020-3297

ID : cisco-sa-sbswitch-session-JZAS5jnY

[CVE-2020-3297](#)

Published : 2020-07-01 16:00

Version : 1.0 : Final

CVSS : [8.1](#)

Workarounds : No workarounds available

Cisco ID : [CSCvt53117](#)

Summary: A denial of service (DoS) vulnerability exists in the Session Management component of Cisco Small Business routers. An attacker can exploit this vulnerability to cause a denial of service (DoS) by sending a specially crafted request to the router.

Details

Cisco Small Business routers, including the **Web** interface, are affected by this vulnerability.

The vulnerability is located in the **Session Management** component. It affects the **Web** interface of the router.

The vulnerability is a **Denial of Service (DoS)**. An attacker can exploit this vulnerability by sending a specially crafted request to the router. This request causes the router to crash, resulting in a denial of service.

The vulnerability is a **Denial of Service (DoS)**. An attacker can exploit this vulnerability by sending a specially crafted request to the router. This request causes the router to crash, resulting in a denial of service.
