

Cisco Packet Data Network Gateway (PGW) IPsec ICMP Denial of Service (DoS) Vulnerability

Severity: Medium
Product: Cisco Packet Data Network Gateway (PGW)
Version: 1.1 (Final)
CVSS: 5.8
Workarounds: No workarounds available
Cisco ID: CSCwb32089

[CVE-2023-20051](#)

Summary: A Denial of Service (DoS) vulnerability exists in the Cisco Packet Data Network Gateway (PGW) IPsec Processor (VPP) component. An attacker can exploit this vulnerability to cause a Denial of Service (DoS) attack on the PGW.

Details

Cisco Packet Data Network Gateway (PGW) IPsec Processor (VPP) is a component of the Cisco Packet Data Network Gateway (PGW) that processes IPsec traffic. A Denial of Service (DoS) vulnerability exists in the VPP component. An attacker can exploit this vulnerability to cause a Denial of Service (DoS) attack on the PGW. The vulnerability is caused by a buffer overflow in the VPP component. An attacker can send a specially crafted IPsec traffic to the PGW, which will cause a buffer overflow in the VPP component. This will cause the VPP component to crash, resulting in a Denial of Service (DoS) attack on the PGW. The vulnerability is present in the following versions of the PGW: 1.1 (Final). The vulnerability is identified by Cisco ID CSCwb32089. For more information, see the following link: <https://sec.cloudapps.cisco.com/security/center/content/CiscoSecurityAdvisory/cisco-sa-cisco-pdng-dos-KmzwEy2Q>

Impact

Impact: Denial of Service (DoS)

The vulnerability allows an attacker to cause a Denial of Service (DoS) attack on the PGW. The attacker can send a specially crafted IPsec traffic to the PGW, which will cause a buffer overflow in the VPP component. This will cause the VPP component to crash, resulting in a Denial of Service (DoS) attack on the PGW. The vulnerability is present in the following versions of the PGW: 1.1 (Final). The vulnerability is identified by Cisco ID CSCwb32089. For more information, see the following link: <https://sec.cloudapps.cisco.com/security/center/content/CiscoSecurityAdvisory/cisco-sa-cisco-pdng-dos-KmzwEy2Q>
