

# Cisco Unified

## Communications

Product: Cisco Unified Communications Manager

CVE-2023-20266

Severity: Medium

Published: 2023-08-30 16:00

Version: 1.0

CVSS Score: 6.5

Workarounds: No workarounds available

Cisco ID: CSCwh30455, CSCwh29940, CSCwh30442

Cisco Emergency Responder Cisco Unified Communications Manager (Unified CM) Cisco Unified Communications Manager Session Management Edition (Unified CM SME) Cisco Unity Connection

Impact

Cisco Emergency Responder Cisco Unified Communications Manager (Unified CM) Cisco Unified Communications Manager Session Management Edition (Unified CM SME) Cisco Unity Connection

Root Cause: A vulnerability in the root process of the Emergency Responder service allows a remote attacker to execute arbitrary code with root privileges.

Root Cause: A vulnerability in the root process of the Emergency Responder service allows a remote attacker to execute arbitrary code with root privileges.

Root Cause: A vulnerability in the root process of the Emergency Responder service allows a remote attacker to execute arbitrary code with root privileges.

Root Cause: A vulnerability in the root process of the Emergency Responder service allows a remote attacker to execute arbitrary code with root privileges.

Root Cause: A vulnerability in the root process of the Emergency Responder service allows a remote attacker to execute arbitrary code with root privileges.
