Copy/Save Configuration

All configurations that the switch is currently using are in the running configuration file which is volatile and is not retained between reboots.
To retain the configuration between reboots, make sure you copy the running configuration file to the startup configuration file after you have completed all your changes.

Source File Name:
● Running configuration
○ Startup configuration
○ Backup configuration
○ Mirror configuration

Destination File Name:
● Running configuration
○ Startup configuration
○ Backup configuration

Sensitive Data:
○ Exclude
● Encrypted
○ Plaintext
Available sensitive data options are determined by the current user's SSD rules
