1. In the Security Configuration screen, the LSC status is Pending.

2. The system is generating keys for LSC. The status changes to Generating keys...

3. The LSC status is now Installed, indicating successful configuration.

4. Verify the LSC configuration.

4.1. Verify the LSC configuration by running the following command:

4.1.1. Run the following command in the CLI to verify the LSC configuration:

`show security lsc`

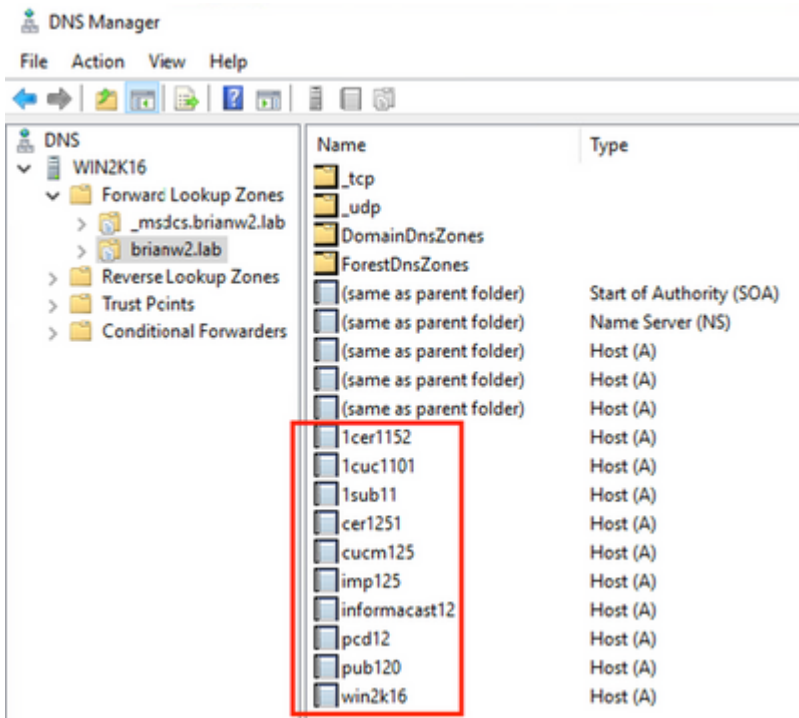

4.1.2. The output of the command shows that the LSC is installed and configured correctly.

4.2. Verify the LSC configuration by running the following command:

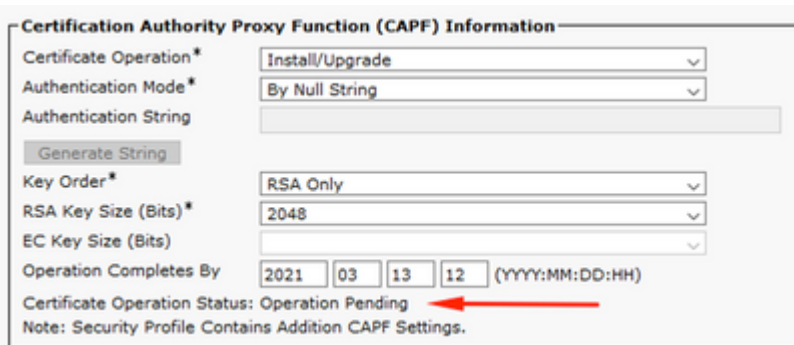

`show security lsc`
